

Nature Based Solutions for Clean Water

Our science is identifying where to most effectively invest in nature for clean water in
Lake Champlain

Pollution Sources

Agricultural, Stormwater, and Forestry Run-off

Nature Based Solutions

Naturally and affordably filter run-off pollution to help clean our waters

- INTACT WETLANDS
- RESTORED FLOODPLAINS
- PROTECTED UPLAND FORESTS
- VEGETATED BUFFERS ALONG WATERWAYS

Strengthening nature to combat our environmental challenges is a win-win with
Many Benefits

- CLEAN WATER
- WILDLIFE & FISH HABITAT
- INCREASED FLOOD & CLIMATE RESILIENCY
- RECREATIONAL OPPORTUNITIES

Water Quality Blueprint

Our Water Quality Blueprint identifies the best places to invest in nature to help clean up Lake Champlain
